

# PHYSICIAN ASSISTANT PROGRAM

## Physician Assistant Mission

To improve universal access to health care by graduating highly competent and confident Physician Assistants prepared to provide exceptional quality, patient-centered ethical health care in a collaborative environment.

## Bryant University Physician Assistant Program Vision

The Bryant University Physician Assistant program will:

- Graduate top performing physician assistants from a rigorous program
- Prepare physician assistant students to perform in any clinical environment
- Engage physician assistant students in the pursuit of lifelong learning
- Instill in our students a desire to seek roles in leadership
- Ensure commitment to furthering the success of our profession

## Goals of the Bryant University Physician Assistant Program

1. Prepare our physician assistant students to excel in all of the competencies required for PA practice by providing a rigorous and supportive program in which to develop the knowledge, interpersonal, clinical, and technical skills, professional behaviors, and clinical reasoning and problem solving abilities necessary to clinical care
2. Prepare our physician assistant students to meet the needs of our health care system by providing a strong primary care experience caring for under-served populations and by developing an understanding of the health care delivery and payment systems that affect health care access, outcomes, and potential disparities
3. Develop and support our physician assistant students' commitment and ability to serve in leadership roles as advocates for patients and the PA profession
4. Develop and strengthen our physician assistant students' skills and habits critical for life-long learning and continuous practice-based self-improvement
5. Facilitate achieving our program's mission, vision, and goals by integrating and supporting diverse perspectives throughout the curriculum, including global and inter-professional perspectives, in order to best serve the needs of our diverse patients and communities

## Bryant University Physician Assistant Program Accreditation Status

The ARC-PA has granted Accreditation-Provisional status to the Bryant University Physician Assistant Program sponsored by Bryant University. Accreditation-Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program's ability to meet the ARC-PA Standards or when a program holding Accreditation-Provisional status appears to

demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students. Accreditation-Provisional does not ensure any subsequent accreditation status. It is limited to no more than five years from matriculation of the first class.
