

APPLIED ANALYTICS CONCENTRATION

The Applied Analytics Program at Bryant University is an 18-credit interdisciplinary concentration that provides students with a solid foundation in integrating technology and analytical methods to acquire, analyze and apply information for projects in diverse areas such as literary and historical text analysis, social media and web analytics, bioinformatics and business decision making. Applied Analytics is a second concentration that must be taken concurrently with a required primary major in the College of Arts and Sciences or concentration in the College of Business. In this manner, students not only gain exposure to, and skills in, applied analytics but they also acquire a strong foundation in their chosen discipline to provide the context in which applied analytics may be used effectively.

Objectives

- Prepare students to critically analyze problems in a variety of disciplines in liberal arts, sciences and business and to identify relevant and useful information to support the attainment of desired outcomes.
- Prepare students to think critically by drawing appropriate conclusions from examining the output of methodological applications of applied analytics.
- Prepare students to conceptualize, apply and integrate effective strategies to acquire, store, analyze and deploy information effectively.
- Prepare students to evaluate data management technologies in the context of data quality, and security and privacy regulations to determine their potential impact on information resources.
- Prepare students to build advanced analytical models for relevant application.

Applied Analytics Concentration Requirements

Required Courses:

AA 205	Introduction to Applied Analytics	3
AA 304	Managing Information for Applied Analytics	3
AA 306	Data Mining for Effective Decision Making	3
AA 490	Applied Analytics Capstone	3
Student must take 2 elective courses from an approved list in the students' primary area of concentration ¹		6

A minimum of 18 credits is required for the concentration.

¹ No more than one course at the 200 level.
