

STUDENT SERVICES

The Centers for Student Success

The Centers for Student Success staff engage in a partnership with students to help them achieve their academic goals. The staff includes a network of full-time and part-time professionals who are specialists in writing, English as a second language, and learning disabilities.

Access Services: Accommodation for Students with Disabilities

At Bryant, we have a three-pronged disability services system that is designed to facilitate your request for accommodations. Therefore, depending on which category of disability/disorder you fall under, you will begin the process through one of three University administrators. Please contact the individual below who best fits your needs. If you need disability-related support from more than one of the three areas, please contact only one of these individuals for an initial consultation. That individual will then collaborate with the other office(s) to provide the most effective assistance and accommodations.

For students with documented learning disabilities, academic accommodations are available. Students with learning disabilities can process academic accommodation requests through Access Services. To receive academic accommodations, students must submit documentation that describes the nature of the learning disability to the Assistant Director of Access Services. Diagnostic testing that identifies the existence of the learning disability must have been completed within the past three years. The Assistant Director of Access Services recommends academic accommodations; however, it is incumbent upon the student to schedule an appointment with the Assistant Director at the beginning of each new semester to arrange for services. Students with learning disabilities can schedule an appointment with the Assistant Director by calling (401) 232-6746. Documentation guidelines may be accessed here: <https://my.bryant.edu/portal/academic-success-programs/access-services.htm>
