

SPANISH FOR HEALTH SCIENCES MINOR

The Minor in Spanish for Health Science is designed to provide students with an advanced level of language proficiency, a strong understanding of the cultures of Spanish speaking societies, and specialized vocabulary related to careers in healthcare. Besides equipping students with the necessary tools to become excellent communicators and rigorous thinkers, the minor also equips students to live and work within an increasingly international context. Given the significant presence of Latina/os in the U.S. and the considerable number of Spanish speaking transnational immigrants, minoring in Spanish for Health Science also grants the student an advantageous position in the job market.
