

BACHELOR OF ARTS WITH A MAJOR IN SOCIOLOGY SOCIAL RESEARCH CONTENT TRACK

Social Research Content Track

The Social Research content track builds upon the sociology core with an enhanced focus on social research methods. Courses within the major are designed to lead to a substantial, individual research project for the student's Capstone experience. Through a combination of traditional sociology courses and individual research under the close supervision of a member of the sociology faculty, students become skilled at conceptualizing problems, designing research, and analyzing data. Students develop a deep understanding and can think analytically about the ways in which individual behavior is connected to the larger social world. Regardless of which concentration is selected, the skills and qualities fostered by the Bachelor of Arts in Sociology program combine to prepare students for fulfilling lives and rewarding careers across a broad spectrum of profit and nonprofit settings.

Requirements
