INTERNATIONAL BUSINESS PROGRAM

Objectives

- To prepare students to become creative and responsible leaders in the global business arena.
- To cultivate a global perspective in its students. A fundamental understanding of the relevance of complex international issues related to culture, environment, legal and regulatory systems and policies, ethical norms, the role of institutions and governments, and business practices, as well as the practical skills needed to deal with those issues in business and in life.
- To provide students with the opportunity to study and/or work abroad.
- To cultivate students’ understanding of the functional areas of business with special emphasis on issues and problems faced by managers of multinational businesses.
- To provide students with an in-depth understanding of one functional area of concentration.
- To prepare students for innovative problem solving in the modern global business arena.
- To equip students with an understanding of the role of technology in business, especially as it relates to the trend towards globalization.
- To prepare students to work with and lead groups of diverse individuals.
- To develop students’ written and oral communication skills in English, as well as in a foreign language.
- To prepare students to function as entrepreneurs in the modern global business environment.
- To provide students with an appreciation of the arts and humanities.

Graduates of the B.S. in International Business will have a strong theoretical foundation in international business and its practical application. A global perspective, critical to success in the global business arena, will be enhanced through extensive internationally focused coursework in both business and liberal arts. Requirements of a foreign language minor as well as an international academic experience enhance this effect. In addition, Bryant’s program is one of the few in the country that offers concentrations in business functions, resulting in students who have both broad exposure to international business issues as well as a depth of understanding of a particular field of business. The program also integrates many of the resources offered by The John H. Chafee Center for International Business.

Business Concentration

International Business majors are required to concentrate in a functional area of business (accounting, entrepreneurship, finance, global supply chain management, human resource management, information systems, leadership and innovation, marketing, or team and project management). Lists of faculty and concentration objectives can be found in the catalog under the specific departments. All courses will be described in the Course Descriptions section of the catalog.

International Business Minor

The Minor in International Business will facilitate the cultivation of a global perspective in our students, contributing to their achieving their personal best in life and business. Through a combination of two required courses that are integrated across business functions and two electives that focus on the international aspects of specific business functions, minors will develop a broader and deeper understanding of the issues faced by companies engaged in international business, as well as the application of business theory and concepts to common problems faced by these businesses. This will lead to greater international awareness and enhanced technical skills for competing and leading in the global business environment.
