SPORTS STUDIES (SPS)

Courses
SPS 491. Sport Studies Senior Capstone Seminar. 3 Credit Hours.
The Sport Studies Capstone Seminar requires that students collaborate in the inter-disciplinary study of sport, integrating ideas about sport studies across a variety of disciplines. The collaboration and connections across disciplines will lead students to a deeper understanding of the role and place of sport in society. This course is unusual and innovative: sport studies students will complete a capstone project but work within a specific discipline, requiring students to share and develop connections across disciplines and between experiences and academic content.
Prerequisites: Senior standing
Session Cycle: Spring
Yearly Cycle: Annual.
