

SPORT STUDIES CONCENTRATION

A Sport Studies concentration allows students a close, critical and multi-faceted examination of the global phenomenon of sport. The concentration includes courses that focus on the institutional and cultural aspects of sport, the media and sport, and the embodied and physiological core aspect of sports and athletics. Fundamental to the Sport Studies concentration is the cultivation and increasing mastery of discipline based approaches to the study of sport. This is an 18 credit concentration. Students must have a primary concentration in the College of Business or a major in the College of Arts and Sciences.

Students completing the Sport Studies concentration will:

- Demonstrate knowledge of key concepts in the study of sport.
- Demonstrate an understanding of the contradictions of the phenomenon of sport.
- Develop a mastery of major concepts of a discipline based approach to the study of sport.
- Apply discipline based theories to the study of sport.
- Describe and critically analyze sport as a cultural, social, political and economic context for human interaction.

The concentration requires that a student take three courses in a specific discipline including the Capstone – that meet the learning objectives of the liberal arts minor.
